REASONS FOR ALLOWANCE

Drawings

1. Figure 10 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

2. Claims 1-6 are allowed.
3. The following is an examiner's statement of reasons for allowance: none of the prior art discloses or suggests that a regenerator circuit of serial data comprising steps of: means for comparing a specified pattern signal used in transmission with a data row constituting a continuous portion of the serial binary data as stored for two system clocks; and determination means for determining the data row matching the specified pattern signal used in transmission; wherein sampling of data is executed on the basis of information on a position of the data row, in the serial binary data for two system clocks, as determined by the determination means as recited in claims 1, 4; means for comparing a special character signal used in transmission with a data row

constituting a continuous portion of the serial binary data signals as extracted and stored for two system clocks; determination means for determining a data row matching a specified pattern; and means for computing maintenance and transition of information on a position of the data row, in the serial binary data for two system clocks, as determined by the determination means; wherein the most stable sampled serial binary data signal row is selected out of the plurality of the serial binary data signals as oversampled on the basis of results of computation described above as recited in claims 2, and 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
